This heifer blends strong genetic on the top and bottom. On the top you have our young herd sire KDK Hercules who should cross 100" ttt this year, not counting the 4-5 inches he broke off. On the bottom you have an awesome twisty horned Fifty-Fifty daughter who is well on her way to crossing 100" ttt. No semen available on Hercules, this is your chance to get in early on game changing genetics. DNA sent in for verification but not yet on file.
